Date: /04/2020

Subject: UNICEF support for different activities for nutrition programs in context of COVID 19.

Government of Gujarat (GoG) has taken various steps to combat malnutrition at various level and conceptualized management of Severe Acute Malnourished (SAM) children at Child Malnutrition Treatment centres (CMTC) at taluka level and Nutrition Rehabilitation Centres (NRC) at district level and Community based management of children with SAM (CMAM) at village level.

I have received your letter for nutrition activities during COVID 19 pandemic and requesting you to support as mention below.

1. Breast feeding guideline for COVID 19 positive mother in Gujarati.
2. Management of children with Severe Acute Malnutrition in context of COVID 19 in gujarati.
3. Develop informative material in gujarati on Infant Young Child Feeding practices for Home base Nutritional care for underfive children in gujarati.

Looking forward for continued partnership in future.

(Dr N. J. Patel)

To,
Dr Kavita Sharma
Nutrition specialist
UNICEF, Gujarat
